Editorial

By Engr. Adetiran Adesoji

PRO | Editor-in-Chief | Chairman,
Mobilization Committee

Happy New Year, 2026!

Great Association Members,

It is another time to review our activities and present before us news from among us. The Thrive Newsletter has come to stay as our Quarterly publication through which we have been consistently dishing out information as promised by this administration. We crave for your inclusivity and warm reception to make the publication better by your comments, suggestions and criticism where necessary. As the Editor-in-Chief of this publication, I am always eagerly anticipating the next newsletter which gives the opportunity to share and disseminate information through the platform. Our mission remains provision of up-to-date, accurate, and engaging contents from the Mobilization and Publicity Committee.

In Q4 of 2025, we marked our 20th Graduation anniversary with a reunion party at the International Conference Centre, the University of Ibadan, on the 6th of December, 2025. It was fun to have members from all over the world attend physically and over the virtual platform.

In the same spirit of celebration, one of our leaders, the Vice Chairman of our esteemed Alumni Association, Engr. Adewumi F. Odewale was inaugurated as the 6th Chairman of the Osogbo Chapter of the Association of Professional Women Engineers of Nigeria (APWEN). This is testament to her leadership and the quality in our ranks.

Our heartfelt congratulations goes to our brother, Engr. Ojo B.A who was voted as the Head of Electrical and Electronics Engineering Department, the Federal Polytechnic Ilaro, in a 2-way event that saw him get promoted at work. This is not a surprise as his leadership has been well established from decades ago when he led our group as the Class Rep.

In the same Quarter, our brother Engr. Ilufoye Opadoyin celebrated his mum at 80. It is our prayer that we celebrate our aged parents in good health. We celebrate his family and the healthy life of mummy.

Finally, our brother and Chairman of the Reunion Committee, Engr. Adeniyi Adenika celebrated the life of his dad, Elder John Afolabi Adenika, who passed at the age of 80. We pray for the soul of daddy to find rest in the bosom of the Almighty.

As a growth-oriented group, we also ensure to educate ourselves using the Thrive Newsletter. In this quarter's edition, we our General Secretary, Engr. Olaniyi Olayiwola discusses Performance Management as a business success factor. Hopefully, we can discuss this further on the group platform for diverse opinions and inputs. We have a wealth of resource persons and will appreciate topics from other members to be published in subsequent editions of The Thrive Newsletter.

Thank you, and Happy New Year!

Chairman's Remark

Dr. Oluwatosin Emmanuel Rabi

Happy New Year!

to ensure no stone was left unturned for us to enjoy refreshing memories. I must admit that we have come a long way to achieve so much together despite the challenges that attempted to stop us. But here we are today proudly thriving together in unity of purpose.

As we step into a new year, let's look back on our achievements and look forward to new opportunities. I encourage us to draw on our strengths while staying focused as we work together to make 2026 a remarkable year for our association. We plan to consolidate our legacy award prizes for the Best Graduating Male and Female Students of the Department of Electronic and Electrical Engineering, LAUTECH Ogbomosho, during our Alma Mater's Convocation ceremony, usually scheduled for April annually. Based on a request from the Dean of the Faculty of Engineering and Technology, Prof. Z. K. Adeyemo, in his speech, which was delivered during our 20th reunion anniversary, this administration will be expanding the Convocation award prizes to include the Overall Best Graduating Student of the Faculty of Engineering and Technology, LAUTECH, Ogbomosho.

By this, we are also making a landmark impact not only in the department but also in the faculty where we all passed through. The Project Committee, constituted by this administration and chaired by Engr. Ayantunji Reuben has proposed two spectacular projects to be financed by the Association with

the aim of delivering them to the Department this quarter. As a quick reminder, giving back to our Alma Mater will enhance the learning environment and further motivate the students to aspire to shine brighter academically. This year, we shall also be conducting another election to usher in a new set of executives that will steer the association to greater heights. When we make a clarion call to constitute the Adhoc Electoral Committee as provided for in our 2025 Constitution (as amended), it shall be expected that we all support the electioneering process for a fruitful outcome.

To conclude, I've come to believe in the uniqueness of our association with our capability to attain greatness even when we didn't look like it at the beginning. Consistently, let's keep believing in ourselves, our abilities, and our worth. At the end, I desire that we shall persistently record positive growth amidst us as we individually and collectively flourish, thrive, and achieve our dreams ultimately. I wish all of us a prosperous new year 2026!

Dr. Rabi E. Oluwatosin
Executive Chairman,
LAUTECH EEE Class '05

I am wishing every member of the LAUTECH EEE Class '05 a fantastic 2026! May this new year bring growth, success, and fulfilment to all of us.

The fact that we have all survived 20 years after graduation reflects an emanation of divine grace, which none of us should take for granted. All adorations belong to God Almighty, our Creator and Maker, who has made it possible for us to get this far in our journeys together.

Coincidentally, we celebrated our two-decade after-school anniversary in a glamorous reunion at the International Conference Centre of the University of Ibadan on the 6th of December, 2025. I personally want to take a moment to express my heartfelt appreciation for all our sacrifices in terms of financial contributions, dedication, and hard work that made the event a success. The Reunion Committee, under the chairmanship of Engr. Olaniyi Adenika and Engr. Adeniyi Adefioye, as the Secretary, delivered excellently well against all odds.

20th Graduation Reunion

LAUTECH EEE Class '05

Reported by Engr. Olaniyi Olayiwola General Secretary

The LAUTECH Electronic and Electrical Engineering Class of 2005 Alumni Association under the distinguished Chairmanship of Dr. Oluwatosin Emmanuel Rabi, celebrated a major milestone with its 20th Graduation Anniversary Reunion Party on 6th of December 2025.

The event brought together classmates from different parts of Nigeria and the diaspora in a warm atmosphere of reconnection, reflection, and shared pride. Held at the International Conference Centre, University of Ibadan, the reunion provided an elegant and fitting setting for alumni to relive memories of their undergraduate years while celebrating how far the class has come professionally and personally.

Laughter, storytelling, and genuine camaraderie filled the hall as old friendships were renewed and new bonds were strengthened, thanks to the General Secretary, Engr. Olaniyi Olayiwola, who brought comedy and familiar banter into the coordination as the Comper of the event.

Beyond the celebrations, the reunion reaffirmed the association's commitment to unity, professional growth, and collective impact. Members reflected on shared values shaped at LAUTECH and expressed renewed enthusiasm for supporting one another and contributing meaningfully to society.

The 20th Graduation Anniversary was more than a reunion. It was a reminder of a shared journey, enduring relationships, and a future strengthened by collaboration and purpose.

The Day commenced with a Philanthropic visit to the newest child born on the 6th of December 2025 to the family of Mrs. Sekinat Azeez, at the Adeoyo Maternity Teaching Hospital, Yemetu, Ibadan. This was coordinated by the Chief Nursing Officer, Mrs. Akinbowale.

Invited Guests in attendance include the Dean of Engineering and Technology Faculty, LAUTECH, Prof. Z.K. Adeyemo, and Prof. M. O. Okelola, the Head, Department of Electronic and Electrical Engineering, LAUTECH, Ogbomoso, Nigeria.

20th Graduation Anniversary

Chairman's Reunion Speech

Opening

First and foremost, I am using this moment to ascribe all glory to God my maker for giving me this special privilege to be the chair of this association at a time coinciding with the 20th year of our graduation. I do not take this grace for granted.

Protocols

- The Dean of the Faculty of Engineering and Technology, LAUTECH.
- THE HOD of Electronic and Electrical Engineering, LAUTECH
- The Global President, LAUTECH Alumni Association Worldwide,
- Great Executive committee members,
- Chairmen of Constituted Committees,
- Association Members
- Family and Friends.

Introduction

Just like yesterday that we bid farewell to our great Alma Mater, our gathering today after 20 years of graduation is a time to refresh memories and re-ignite the bonds that existed among us even when the future looked vague then. But here's the thing nobody told us at graduation: the real education starts the day after. These last twenty years have been the toughest, scariest and most humbling tutor we'll ever have. We've learned that success isn't a straight line; sometimes it's a zigzag that somehow still gets you home. We've lost people we loved far too soon. We've gained people we can't imagine life without.

We have failed spectacularly, gotten back up, changed careers, changed countries, changed minds, while questioning every life choice that led us to where we are now 20 years later. Looking around this hall today, I see world changers who have impacted lives positively, entrepreneurs who have created jobs, parents who have raised incredible children, public servants who have shaped policy.

We didn't just survive the last twenty years; we thrived, we stumbled, we reinvented ourselves, and somehow we all ended up here again, older and possibly greyer, but unmistakably carrying the same spark LAUTECH lit in us.

Our Association Journey...

At the first decade after our graduation, precisely on the 27th of July 2015, an online group in the name of LAUTECH EEE CLASS '05 was formed on the WhatsApp application after series of other efforts to unite old classmates of 2005 set from LAUTECH Electronic and Electrical Engineering. The WhatsApp group is still maintained till today with its advancement into a fully registered association with the Corporate Affairs Commission in Nigeria by 18th of July 2022. The great mind that initiated the idea of bringing all of us together on the WhatsApp platform 10 years ago later emerged coincidentally as the pioneer chairman of our Association after the transformation from just a WhatsApp group to a Corporate entity.

On this note, I specially appreciate the efforts of Engr. Omorinde Tosin Ayorinde for setting the pace and laying a good foundation for this association. Other pioneer Executive Committee members of that administration contributed tremendously to what we are seeing today. The Vice Chairman - Engr, Alaba Azeez, The General Secretary - Engr. Olayiwola Olaniyi, The Treasurer - Dr. Tosin Rabiun, The Financial Secretary - Engr. Oyeniyi Oluwaseun, The Public Relation Officer - Engr. Adetiran Adesoji, The Ibadan Zonal Coordinator - Engr. Adeyemo Olusegun, The Lagos Zonal Coordinator - Engr. Aderibigbe Emmanuel, The Osogbo Zonal Coordinator - Engr. Omowaiye Rebecca, The Abuja Zonal Coordinator - Engr. Adejumo Dolapo, The Ogbomoso Zonal Coordinator - Engr. Adeyemo Victor, The Port Harcourt Zonal Coordinator - Engr. Ayantunji Reuben and the Diaspora Zonal Coordinator - Engr. Olajuwon Olabisi.

Chairman's Reunion Speech cont'd

I salute your resolute determination and stewardship especially your unrelenting supports in making the association better even now than you when you left office.

Where we are...

"Rome was not built in a day" goes the popular saying. However, we have taken giant strides financially by supporting our Alma Mater in cash reward awarded to the best graduating male and female students in the last two convocations. A culture that has become our trademark as the only departmental alumni doing this annually and this is well acknowledged by the school management which was communicated to us by the Registrar this year after noticing our consistency.

We have also equipped the Telecommunication laboratory with an Antenna Trainer Kit worth over one million and eight hundred thousand naira in the past with ongoing efforts to do more in the coming year 2026. Earlier today, we visited Adeoyo Teaching Hospital, Ibadan, to present cash gift of N50,000 to Mrs. Sekinat Azeez, the mother of the newest baby delivered at the hospital. This gesture is a way to specially mark our landmark celebration today.

Appreciation

A tree cannot make a forest. What you see in display today is as a result of the Executive Committee's late night meetings and several deliberations. Hence I thank the Vice Chairman - Engr. Odewale Adewumi, the General Secretary - Engr. Olayiwola Olaniyi, the Treasurer - Engr. Alade Temitope, the PRO - Engr. Adetiran Adesoji, the Financial Secretary - Engr. Oyeniyi Oluwaseun, the Lagos Zonal Coordinator - Engr. Ojenike Abimbola, the Ibadan Zonal Coordinator - Engr. Adeyemo Olusegun, the Osogbo Zonal Coordinator - Engr. Agbonyin Anthony, the Diaspora Zonal Coordinator - Engr. Oladapo Kolawole, the Abuja Zonal Coordinator - Engr. Gazali Bolade, the Port Harcourt Zonal Coordinator - Engr. Robert Omotoke. Your supports have been enormous. I also appreciate all our constituted committees: Finance - under the chairmanship of Engr. Oyeniyi Oluwaseun, Welfare - under the chairmanship of Engr. Odewale Adewunmi, Business Strategy and Development - under the chairmanship of Engr. Alaran Tokunbo, Project under the chairmanship of - Engr. Ayantunji Reuben, Ethics and Audit - Engr. Jolaoye Oluwatosin, Constitution Review - Engr. Mustapha Taofeek, Mobilization and Publicity - Engr- Adetiran Adesoji, and

Alumni Reunion Committee - being chaired by Engr. Adenika Olaniyi for working round the clock to support this administration. To all that financed this reunion. I say a big THANK YOU. It shows the power of unity that has bonded us together 20 years and still counting. I counted over 40 members on the list of our financiers raising over N800,000. That's a great one. God bless you all abundantly

A minute of silence...

The planning committee Chairman of this 20th Graduation Anniversary Reunion buried his father just a week ago and so, our brother Engr. Adenika Olaniyi is mourning currently and could not be physically present with us today. He has put a lot in motion to make today a reality that we are experiencing currently but God knows best. Some members of the association also lost their loved ones or aged parents over the years. Especially, for our classmates that died and could not make it to celebrate this 20th graduation anniversary with us today namely;

1. Femi Agbelusi
2. Dotun Afolarin
3. Dotun Ajayi
4. Bro. Joseph
5. Raji Musiliu
6. Tayo Akala

May their gentle souls rest in perfect peace. Amen!

Conclusion

My Dear Classmates of 2005, we did it. We grew up, we showed up, and today we proved that time cannot erase what LAUTECH wrote on our hearts.

So raise your glasses with me: To the friendships that feel like family, To our parents who never gave up on us, To the dreams we dared to dream here, and to the next twenty years of showing the world what LAUTECH EEE CLASS '05 is truly made of!

I am 'Tosin Rabi, aka Prof Rabs!

Summary

PROJECT

Recommendation Report

By the Project Committee

The project committee of LAUTECH EEE CLASS OF 2005 is a committee approved and stated in the constitution of LAUTECH EEClass'05 association. The following committee members were appointed and accepted the following responsibilities:

Chairman – Engr. Reuben Ayantunji
Secretary - Engr Semiat Adewumi

The objectives of the committee are as follows:

- Consider and develop viable ways the association can give back to our alma matter specifically the Electrical and Electronics Engineering department.
- Take ownership of approved projects decided on above from conception to complete execution.
- Ensure proper hand over of said project to the department where necessary.

This committee existed in the previous EXCO of the association, so the current activities and functions are a continuity of the past efforts.

Members of the committee met to discuss various recommendations on ways the association could give back to the school/department. These deliberations were done in meetings including the inaugural one along with online interactions via WhatsApp.

Departmental Request

So far the project recommendations highlighted are as contained in a letter received from the department Head, Professor M.O. Okelola. The Head of Department highlighted the following in the letter

- Procurement of advanced laboratory equipment for hands-on training and research.
- Sponsorship of scholarships and grants for outstanding but financially challenged students.
- Development of research initiatives in areas such as renewable energy, smart grids, and artificial intelligence in electrical engineering.
- Establishment of industrial-academia partnerships that will bridge the gap between theoretical knowledge and practical applications.

Financial Award for Best Graduating Students

In continuation of the associations commitment to rewarding performing students of the department, the Project committee requested the Association raise funds to award the best graduating male and female students during the 2025 convocation.

The following students were awarded cash prizes at the 2025 convocation ceremony:

- Komolafe Teslim Gbolahan – Best graduating student Male
- Babalola Pipelore Esther – Best graduating student female

The association will continue its commitment to this initiative along with other avenues of support to the department.

Recommended Projects

The following requests were highlighted as possible project options for the association. It is worthy of note that we have not exhausted all the requests in the list and it is recommended to the association to consider expanding it to include further laboratory items in the list.

1.DC POWER SUPPLY WITH RHEOSTAT MADE BY Delorenzo:

- Transformer Trainer
- Machine Trainer

PROJECT

Recommendation Report

By the Project Committee (Cont'd)

2. MICRO CONTROLLER PROGRAMMER AND READER YWBL-WH Pic Microcontroller, USB PIC K150 Automatic Programmer Burner Programming Develop Microcontroller6.

3. PROGRAMEABLE LOGIC CONTROLLER SYSTEM Plc Programmable Logic Controller Dc 1028v Plc Regulator

4. COLOR SCREEN OSCILOSCOPE (1013D Digital Oscilloscope 2 S 100mhz Bandwidth 1gsa/S Sampling Rate USB Oscilloscope With Color TFT LCD Touching Screen)

5. TEMPERATURE LOGGER WITH SENSORS (East Tester 8 Channels Temperature Recorder Temperature Data Logger 5 Inches LCD Display Screen For Digital Show, ET3916-08T, Accuracy 0.02% FS, Resolution 0.01)

6. VARIABLE FREQUENCY DRIVE (1hp 0.75kw - 460v Vfd-E - Inverter Variable Frequency Drive)

The committee has settled on getting a quote or cost for items listed in number 1.

This does not rule out the purchase of the other items listed in 2 to 7. It is suggested that the committee connect with the manufacturer of the Antenna system purchased during the tenure of the last EXCO for a quote and possible purchase of item 1a and 1b.

Item 1 should be sourced possibly directly from the Original Equipment Manufacturer (OEM) DeLorenzo as indicated in the [link](#).

Conclusion

While the committee has recommended a project, the association can present to the department, it is to be noted that the list of recommendations is not exhaustive.

The committee is of the opinion that the association should raise as much funds as possible to cover all the requests although a particular item/request has been prioritized.

Award Presentation to the Best Graduating Students

Felicitations

Engr. OJO B.A

Our Class Rep back in LAUTECH, Engr. Ojo B.A becomes the Head of Department (HOD) of Electrical and Electronic Engineering Department, The Federal Polytechnic, Ilaro, and also earned a promotion.

This is a well-deserved career elevation, considering your leadership and tenacity.

Congratulations!

CELEBRATING ACHIEVEMENTS

**Congratulations to our
achiever in the
Quarter**

We look forward to celebrating more members in our collective efforts of professional and personal growth

Felicitations

Engr. Adewumi F. Odewale

Engr. Adewumi Funmiso Odewale (a.k.a Mama Electrical) was inaugurated as the 6th Chairman of the Osogbo Chapter of the Association of Professional Women Engineers of Nigeria (APWEN) on the 20th December, 2025

This is a well-deserved honour. You have always demonstrated your leadership acumen, and this recognition does not come as a surprise.

Congratulations!

CELEBRATING ACHIEVEMENTS

**Congratulations to our
achiever in the
Quarter**

We look forward to celebrating more members in our collective efforts of professional and personal growth

Event

NEWS

ADENIKA CALLED

Engr. Adeniyi Adenika buries dad, Elder John Afolabi Adenika on the 29th November, 2025. May daddy RIP.

Engr. Ilufoye celebrates mum's birthday at 80. We wish mummy good health and beautiful moments.

Performance Management:

The Strategic Pulse of Modern Business

In the modern boardroom, performance management has transitioned from a seasonal HR obligation to a perpetual strategic engine. It is no longer just about 'ranking' talent; it is about synchronizing individual growth with corporate velocity. For the professional navigating today's volatile markets, mastering these frameworks is not just a management skill; it is a critical success factor for organizational health and personal career longevity.

Engr. Olaniyi Olayiwola

The Evolution: From Policing to Powering

Traditional models defined by the dreaded annual review and rigid 'forced ranking' often acted as a rearview mirror, focusing on past failures rather than future potential. Modern Corporate Performance Management (CPM) has flipped this script.

By treating performance as a dynamic, real-time data stream, organizations can pivot with agility.

- Continuous Engagement: Replacing sporadic meetings with a culture of ongoing coaching and 'feed-forward' loops.
- Outcome-Based Metrics: Moving away from 'hours worked' toward high-impact OKRs (Objectives and Key Results) that drive transparency.
- Holistic Growth: Integrating well-being and soft-skill development as core components of a productive workforce.

- 1 Continuous Feedback
- 2 Strategic Alignment
- 3 Data and Artificial Intelligence

Continuous Feedback: The Power of 1:1

Feedback is the lifeblood of high performance. Modern systems prioritize weekly or bi-weekly check-ins over annual post-mortems. This approach reduces recency bias and ensures that course corrections happen in days, not months.

- Manager as Coach: Success hinges on managers shifting from 'judges' to 'facilitators'.
- The 360-Degree View: Incorporating peer and subordinate feedback to remove individual bias.

Benefits of Real-life Coaching

Agility> Enable teams to adjust goals as market priorities shift, ensuring effort is never wasted on outdated objectives.

Engagement> Employees who receive meaningful feedback weekly are 3 times more likely to be fully engaged in their work.

Performance Management:

The Strategic Pulse of Modern Business

Cont'd

Engr. Olaniyi Olayiwola

OKR's and Strategic Cohesion

Alignment ensures that every individual contributor understands how their 'daily grind' fuels the company's North Star. This vertical and horizontal transparency is what separates high-performance organizations from the rest.

- Transparency: Publicly visible goals encourage a sense of shared purpose.
- Prioritization: Clear metrics allow teams to say 'no' to low-value tasks.

Strategic Frameworks

OKR's (Objective and Key Results)

Focus: Ambitious growth & innovation

Cycle: Quarterly

Mechanism:
Bottom-Up & Top-Down alignment

KPI's (Key Performance Indicators)

Focus: Operational health & efficiency

Cycle: Ongoing monitoring

Mechanism:
Top-down targets

The Digital Edge

Modern CPM leverages Artificial Intelligence (AI) to synthesize vast amounts of qualitative feedback into actionable insights. This removes the administrative burden from managers and provides a predictive look at talent retention and skill gaps.

- Sentiment Analysis: Detecting burnout or disengagement before it leads to turnover.
- Personalized Development: AI-driven suggestions for upskilling based on performance data.

Success Factors

Cultivate a growth mindset by viewing critical feedback as a tool for evolution rather than personal critique.

Master data literacy. Learn to translate qualitative achievements into quantifiable business impact.

Embrace radical candor. Encourage psychological safety by giving and receiving direct and kind feedback.

Prioritize Wellbeing. Sustainable high performance requires mental and emotional resilience.

Your

ANNUAL DUES

Issue 3, Volume 4, January 1st, 2026

YOUR ANNUAL DUE IS **DUE!**

OLUWASEUN OYENIYI

This is a gentle reminder that your 2025 annual alumni dues of ₦24,000 (or ₦2,000 monthly) are due. We understand the current economic challenges in Nigeria, but this obligation is crucial to the growth of our association, so we ask you to pay up. For our diaspora members, we have displayed the association's domiciliary accounts for ease of payment.

We also appreciate members who have paid their dues. We do not mind your kind and generous donations to support the association. When you make your payment, kindly share evidence of payment with our Financial Secretary, Engr. Oluwaseun Oyeniyi privately.
